CURRICULUM
VITAE

Graphic Designer, with over 10 years of experience in imagining, creating and refining creative concepts.

I follow **companies** and **agencies** in the design and development of communication and web projects with curiosity, knowledge and attention to detail.

The various collaborations in these years have formed professional skills as freelance, both in the context of agency and in the direct relationship with the customer. Therefore, I combine the **technical** and **creative skills** in the graphic field with the ability to train and manage a team of professional figures to allocate it to the realization of the project.
